IMPORTANT SAFETY INSTRUCTIONS

01

READ ALL CAUTIONARY MARKINGS ON THE APPLIANCE AND SAFETY INSTRUCTIONS IN THE USER MANUAL BEFORE USE.

Do not cover the air inlet and outlet while in operation.

Do not use the fan near flammables and combustibles.

General Safety

- 1.Children shall not play with the appliance. Cleaning and maintenance shall not be performed by children without supervision.
- 2.Use the appliance as described in the user manual only. Any other use not recommended in the user manual may cause fire, electrical shock, or personal injury.
- 3.This appliance can be used by children aged above 8 years and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of this appliance in a safe way and understand the hazards involved.

Operation Safety

- 1.Place the appliance on a flat, dry surface before use.
- 2.Do not immerse in water and any other liquids.
- 3.Do not use the appliance until the base is installed.
- 4.Do not insert your fingers, pencil, and any other objects into the grilles while in operation.
- 5.Do not dismantle, repair, or modify. All servicing should be performed by qualified personnel.

Electricity Safety

1. Make sure that the voltage of your electricity supply is the same as that indicated on the appliance.

2. Always unplug before cleaning or leaving the appliance unused for a long period of time. Keep your hands dry when plugging/unplugging.
3. Do not operate any fan with a damaged cord or plug. Discard fan or return to an authorized service facility for examination and/or repair.
4. Do not run cord under carpeting. Do not cover cord with throw rugs, runners, or similar coverings. Do not route cord under furniture or appliance. Arrange cord away from traffic area and where it will not be tripped over.
5. **WARNING:** To reduce the risk of fire or electric shock, do not use this Fan with any solid-state speed control device.
6. This appliance employs overload protection (fuse). A blown fuse indicates an overload or short-circuit situation. If the fuse blows, unplug the product from the outlet. Replace the fuse as per the user servicing instructions and check the appliance. If the replacement fuse blows, a short-circuit may be present and the appliance should be discarded or returned to an authorized service facility for examination and/or repair.
7. This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.
8. **WARNING:** To reduce the risk of fire, electric shock or injury to persons, do not use replacement parts that have not been recommended by the manufacturer (e.g. parts made at home using a 3D printer).

FOR HOUSEHOLD USE ONLY READ AND SAVE THESE INSTRUCTIONS

Gentle Reminder:

Check the appliance regularly and refer to TROUBLESHOOTING or contact our customer support if it shows any of the following signs:

- Power cord or plug is damaged.
- Loud noise, unusual smell or excessive heat.

Specifications

Model No.	DR-HTF017
Input	AC 120V 60Hz
Rated Power	45W

ASSEMBLING YOUR TOWER FAN

02

Assembly Instructions

When using the appliance for the first time, remove the wraps and attach the parts by following the steps below.

1

Intersect the two base halves diagonally.

2

Match the arched cutout with the arched support on the base. Then, hook them together.

3

Press down on the edges to snap the two base halves together.

4

Thread the cord through the center hole and attach the base to the fan bottom.

5

Make sure the pin on the fan bottom is aligned with the cavity on the base.

6

Turn the base clockwise until it **clicks** into place.

7

Thread the cord through all REAR cord keepers, then set the fan upright.

⚠ CAUTION

- Do not operate the tower fan if the base has not been installed.
- Make sure to thread the cord through all rear cord keepers.

Package Contents

Remote Control
(battery included)

KNOWING YOUR TOWER FAN

03

Control Panel

Power Button

- Turn power on/off

Mode Button

- Switch between Normal/Natural/Sleep Mode
- Long press to mute/unmute.

Fan Speed Button

- Adjust fan speed across 1-4 levels

Timer Button

- Select to set a timer (0-8h)

Oscillation Button

- Adjust airflow direction

LED Display

USING YOUR TOWER FAN

04

Working Modes

Normal Mode

Fan runs at the constant speed.

Natural Mode

Fan speed goes up and down intermittently to replicate the natural breeze.

Sleep Mode

(Mute On)

Balance comfort and noise by automatically decreasing fan speed as you fall sleep.

If the fan speed is 3 or higher, it will decrease two times, one speed every 30 minutes, then it will remain constant.

If the fan speed is 2, it will decrease one time after 30 minutes, then it will remain constant.

If the fan speed is 1, it will remain constant from the start.

Additional Features

Mute

Long press  or press  on the remote control to turn on/off the button sounds.

Timer

When the fan is ON/OFF, touch the timer button repeatedly to set a timer (1h-8h). When the timer ends, the fan will stop/start running automatically. To cancel, set the time to 0 hour.

Note: Display will return to fan speed after 3 seconds.

Memory

If the fan is turned OFF or disconnected from power, it will operate under the previous settings (except the timer setting) when it is turned ON again.

Long press  and  for 3s to restore factory settings when the fan is in power-on or standby mode (MCU reset).

Display Auto Off

- Display turns off after 1 minute (after 5 seconds in sleep mode).
- Wake up the display with any button.

Getting the Most out of Your Tower Fan

1. Remove any tall obstacles that might block the airflow from the fan.
2. Combine with your AC unit to get cooler air throughout the room.
3. Position the tower fan closer to you to get more direct airflow.
4. Place a bucket of ice in front of the fan for an extra cooling boost.

Remote Control

Battery Replacement

- 1 Keep the locking tab pressed while pulling out the battery holder from the slot at the back.
- 2 Replace with the same battery type with the (+) side facing up.
- 3 Push in the holder until securely locked in place.

Note: If the appliance doesn't respond when using the remote control in close range please consider replacing the battery.

WARNING

- **INGESTION HAZARD:** This product contains a button cell or coin battery
- **DEATH** or serious injury can occur if ingested.
- A swallowed button cell or coin battery can cause **Internal Chemical Burns** in as little as **2 hours**.
- **KEEP** new and used batteries **OUT OF REACH of CHILDREN**
- **Seek immediate medical attention** if a battery is suspected to be swallowed or inserted inside any part of the body.

- a) Remove and immediately recycle or dispose of used batteries according to local regulations and keep away from children. Do NOT dispose of batteries in household trash or incinerate.
- b) Even used batteries may cause severe injury or death.
- c) Call a local poison control center for treatment information.
- d) Compatible battery type: CR2025.
- e) Battery nominal voltage: 3.0 Vdc
- f) Non-rechargeable batteries are not to be recharged.
- g) Do not force discharge, recharge, disassemble, heat above (rated temperature: 140 °F) or incinerate. Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns.
- h) Ensure the batteries are installed correctly according to polarity (+ and -).
- i) Do not mix old and new batteries, different brands or types of batteries, such as alkaline, carbon-zinc, or rechargeable batteries.
- j) Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.
- k) Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.

CLEANING AND MAINTENANCE

05

Outer Surface

Gently wipe off the dust with a soft, dry cloth.

Grilles & Blades

Remove the dust using a vacuum or air duster.

Base

The base can be disassembled in the reverse order of assembly.

CAUTION

1. Always unplug the fan before any cleaning or maintenance.
2. Do not immerse in water or get water inside the motor housing.
3. Do not use any chemical agents when cleaning the fan.
4. Store in a cool, dry place and cover it to protect from dust.

User Servicing Instructions (Fuse)

This appliance features a fused safety plug that protects against overload or short-circuit situations. If the fuse blows, please cut off power and follow the below instructions or consult a qualified electrician.

- 1 Grasp plug and remove from the receptacle or other outlet device. Do not unplug by pulling on cord.
- 2 Open fuse cover. Slide open fuse access cover on top of attachment plug towards blades.
- 3 Remove fuse carefully. Push the fuse from the other side to remove the fuse.
- 4 Risk of fire. Replace fuse only with 5 Amp.125 Volt fuse.
- 5 Close fuse cover. Slide closed the fuse access cover on top of attachment plug.

WARNING

Risk of fire. Do not replace attachment plug. Contains a safety device(fuse) that should not be removed. Discard product if the attachment plug is damaged.

My fan won't turn on!

Make sure that the cord is connected to a powered outlet and the mains voltage corresponds with the voltage indicated on the fan.

My fan is shaky and wobbling!

1. Place the fan on a flat, level surface.
2. Incorrect installation might also cause shakiness. Please refer to the assembly instructions in **page 3-4**. Note that the power cord must be run through all rear keepers.

My fan is making vibration and noise!

1. Place the fan on a flat, level surface.
2. Be sure not to insert anything into the air inlet and outlet.

If your problem is not listed or still persists, please contact our Customer Support (see page 17).

Default 12-Month Warranty

This appliance is covered by DREO warranty for 12 months from the date of its original purchase.

Extend Your Warranty

Extend your warranty by registering your new appliance on our website <https://dreocom/warranty>.

The warranty will not apply in cases of:

1. Accident, misuse, or repairs performed by unauthorized personnel.
2. Any unit that has been tampered with or used for commercial purposes.
3. Normal wear and tear of wearable parts.
4. Use of force, damage caused by external influences.
5. Damage caused by non-observance of the User Manual, e.g. connection to an unsuitable mains supply or noncompliance with the instructions.
6. Partially or completely dismantled appliances.
7. Defects caused by or resulting from damages from shipping or from repairs, service, or alteration to the product or any of its parts that have been performed by a repair person not authorized by DREO.

We can only provide after-sales service for products that are sold by DREO or DREO authorized retailers and distributors. If you have purchased your unit from a different place, please contact your seller for return and warranty issues.

FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Please note that changes or modifications of this product is not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
